Dear future Polina,

I am writing to you now with a strong belief that you will receive this letter as a successful and confident girl that I have always been dreaming to become. I assume that your life is very busy but I suggest that you pay enough attention to your well-being and self-care.

I have recently come to an idea that you can only be successful and happy once you really care about your physical and mental health properly. I have just started maintaining a healthy lifestyle and I hope you are reaching the goals I have set.

Firstly, I highly recommend you to be attentive to the diet you follow. I have just started to control my dietary habits but I can already see the results. Avoiding pastry and sweets helps me dealing with skin problems and eating vegetables makes me

feel more energetic during the day. However, I'm still not sure whether my diet is nutritious and balanced enough or not. How did you manage to solve this problem?

Secondary, I have put myself on the path of fitness routine. I try to do workouts regularly but keeping myself disciplined is the most complicated task. I can't stay motivated all the time and that's what I have to work on. What makes you motivated? How often do you work out?

The last but not the least, despite everything, prioritize yourself and your mental health. I know that you are really strong but don't forget to be kind to yourself. Have enough rest and don't be afraid to get away from it all once you are overwhelmed with your routine. I'm sure that you are very good at keeping balance between studies and relaxation and I'm very proud of you.

That's all for now. I have to go and start becoming the person I want — you, in other words.

With love,
