DIY LANGUAGE LEARNING ADVENTURES

I'm sure most of you have thought about how dull it is to learn a foreign language while doing grammar tests, learning new yet new tangled vocabulary, and listening to true-or-false recordings. I'd like to embark on drastically altering your attitude to learning a foreign language in this blog post.

ENTERTAINMENT

The paramount and ground-breaking factor that turned the course of my learning process in a disparate direction was the realisation that English (or any other language) ~~is not just a way of conveying information~~ is just a way of conveying information.

чистовик 2

That means I can watch films, read books and listen to music in English, and these activities remain as intriguing and captivating as they are ^{when} I use my native language. And if there's something that isn't clear to you, you can look it up on the Internet. - this way, I learned new vocabulary!

COMMUNICATION

To be honest ~~with you~~, I was petrified of speaking English: I thought I had a heavy accent and that there'd be an abundance of mistakes. ~~at that~~ ^{nevertheless} I gathered all my courage ~~in a~~ and made a profile on one of those online platforms dedicated to find people who aspire to learn a foreign language. And then, it hit me: they aren't perfect too. Pretty soon, I found friends all around the world!

There's a manifold of learning methods, so I'm certain you'll find the one that suits you. I could only suggest that you look at language learning process from a new perspective and remember that language is just a way of exchanging ideas. Speaking of which, if you wish to share your ideas on the topic or, perhaps, your own experience, do not hesitate to leave a comment.
