Task 2. Essay.

No doubt, ~~using Internet and~~ being online plays a great role in modern people's lives. On the one hand, it's really convenient, while, on the other hand, it may harm ~~its~~ users a lot. In this essay, one ~~may~~ ^{can} read about the reasons why it's no good to believe everything they see online.

First of all, there are people who can steal one's personal data via the Internet and claim a great sum of money for it. This is why each user should be extremely careful taking part in online surveys or logging in sites.

One more reason is that one may find a lot of gossip ^{and lies} online. People usually start debating ~~about~~ right under the post. During these debates people are often too rude controversial.

and can easily offend each other. This way one's online communication can be spoilt.

To conclude, I agree with idea expressed in the text above. I believe, one should be attentive and careful being online.
