Task 2

The extract ~~from Wikipedia~~ from Wikipedia entitled "Realism" pivots on the birth of a new ^{artistic} movement in France.

Realism came out as a revolution against Romanticism with its idealistic views of society ~~of that time~~. The Industrial Revolution had a major impact on its benevolence spreading the ideas like a wildfire. Depicting mundane ~~subject~~ objects, the artists shifted their palettes of vibrant colours to gloomy and opaque shades. Major focus was on the working class ~~to~~ to portray day-to-day life without artificiality and embellishment. ~~One of the most prominent figures was~~ Gustave Courbet ^{was a prominent figure} leading Realism to ubiquity. Following in his footsteps, in Russia the Peredvizhniki group consisting of Ilya Repin, Ivan Kramskoy and others could ~~take pride in~~ ^{take pride in} its masterpieces aimed at spreading Realism. However, nothing ~~being eternal~~, ~~conservation~~ the popularity of ~~Roman~~ Realism plunged, and Impressionism took its place. From my perspective, it's ~~is~~ vital that such events emerge as it not only contributes to the personal development of the dwellers but also gets the greatness and enlightenment across.

Task 3 MYSTERIOUS ISLAND

(I woke up in the morning and found myself in an unfamiliar place with only sand all around.) With my clothes soaking wet and limbs burning ~~under~~ ^{under} the scorching sun rays I managed to get to grips with my perplexity and fear and faced the island with lush jungle and stupendous mountains. An aethereal figure with an unreadable expression and an unhealthy complexion appeared from the bushes and murmured, "Welcome to the Island of ~~Doom~~ Doom. You've been chosen as a participant of that game. You either win or die, so do your best."

I couldn't remember when I had started my stroll but I found myself

On a clearing full of scarlet roses. "I should find a stream with clear water and ~~find~~ a source of food first," I concluded. Little did I notice the deadly effect ~~the~~ the flowers ~~and~~ ~~the~~ had on a butterfly floating nearby. Having set my foot on that land, I felt a sting ~~and~~ and halted. The roses were alive as they stretched ^{while} their branches towards me. Suppressing excruciating pain in my wound, I rushed back to the shore ~~keeping~~ clear of the flowers. ~~the~~ ~~the~~ ~~the~~ ~~the~~ ~~the~~ ~~the~~

On my way I caught a glimpse of a cave and headed for it. A sign "Forbidden" couldn't stop my curiosity as a swirling vortex met me. The figure with a sinister smirk emerged from the dark, "You're ~~violating~~ violating our rules, don't move an inch, you have to end the game!" Without any hesitation I took a plunge into the portal.

The moment I gained consciousness I was at home. Nothing felt real, and I started doubting whether my glorious escape was true. My wound had dissolved, however, a mark claiming "Winner" was engraved in my palm. My prize was yet to be obtained.
