Task 1.

- 1) C
- 2) E
- 3) B
- 4) D
- 5) A

10 *Технологический*
Управление

Task 2.

- 1) What is the main profit of robots helping teachers with paperwork?
- 2) Why do teachers quit their job nowadays?
- 3) What are the Anthony Seldon's thoughts on robots in education? 10
- 4) How will robots teach students in the future?
- 5) Robots are more productive than people, aren't they?

Task 3.

Robot teachers?

By Ian Wright
 The News

Many people believe that robots should never take up the jobs that require human connection. Actually, people need to stop underestimating robots.

Although, it's unlikely that robots will gain the social skills to interact with humans better, but they still can be a great help. It should be noted that robot-workers are still better than no workers at all.

Robots can teach wherever it's possible without getting exhausted or sick of the job. Their help is necessary.

Non-teaching work takes a lot of teachers' time and stresses them out. Robots can help teachers with such a big amount of paperwork and free their time for teaching.

In my opinion, robots can be a great addition to the educational process. They can make teachers work

easier and reduce their stress.

Task 4.

Suddenly I've turned into a balloon, flying up the light blue sky.

I could see the whole town! The view was so picturesque and breathtaking that I didn't notice how the wind had blown me down to the street. I accidentally got pinned to the huge oak in the backyard of a small cottage house. Trying to escape, I noticed a boy and a girl playing there. They were probably siblings. The boy looked older, probably a teen. He looked bored and tired of his sister, who looked like she was still in the third or fourth grade. The girl laughed and played with the skirt of her bright pink dress, spinning and dancing around her brother.

- You know that you're too old for that? - the boy asked.
- For what? - the girl replied innocently, blinking slowly.
- For all these games. When I was your age, I never acted as stupid as you do now. Stop wasting your time. You act like a baby!
- I'm not a baby! If you don't want to play than sit silently! - the girl yelled, running away from her brother.

The boy sighed.

I smiled. The girl probably acted on the brother's nerves too much.

Then, I finally managed to fly up again and left

69-99-12-69
(1282)

the backyard fast, caught by the wind.

I observed the whole town from the far distance. I was in awe! I couldn't take my eyes from all the landscapes of the area. All the houses, cafe's, parks, alleys or forests seemed so familiar and foreign at the same time.

When I was a human, my town didn't appeal to me. I found it boring and old-fashioned. When I got turned into a balloon, I've noticed that my town was actually flawless! We all should try to look at the things another way.

Task 3

Robot teachers?

By Ian Wright
The news (101)

believe

Nowadays ~~most~~ many people ⁽¹²⁾ ~~consider~~ that robots should never be ^{come} doctors or teachers, ~~they should not~~ because ⁽¹³⁾ ~~these~~ ^{such} jobs require human connection. We need to stop underestimating robots. Sometimes they ^{job performance is} ~~are~~ better than ours. ⁽³²⁾

~~Teachers~~ ^{have} ~~waste~~ ~~much~~ ~~time~~ Non-teaching work takes a lot of teacher's time and exhausts them. Robots can help teachers with such a big amount of work and ~~free them~~ let them ~~rest~~ do more teaching without being tired. ⁽⁶³⁾

Robots ~~can~~ ~~never~~ aren't able to connect with people ^{as easy as other people do} ~~easily~~ ~~although~~ ~~it~~ ~~should~~ ~~be~~ ~~noted~~ that ~~is~~ ~~robot~~ ~~or~~ ~~robot~~ that robot-workers are better than no workers at all. ⁽⁹¹⁾

Robots can teach ~~at any time~~ wherever it's possible without getting tired or stressed, and they'll never quit this job. ⁽¹⁰⁸⁾ Teachers should get help from robots. ⁽¹¹⁴⁾ ~~the~~ robots might enter the education system.

In future ~~we'll~~ ~~see~~ ~~more~~ ~~robots~~ ~~in~~ ~~education~~. People will be their assistants while robots do the main ~~job~~ ⁽¹³⁵⁾ teaching work.

Task 2 ~~САРДЖЕ~~

- 1. ~~Why should robots~~ What is the main profit of robots helping teachers with paperwork?
- 2. Why do teachers quit their job nowadays?
- 3. What are the Anthony ~~Seidonis~~ thoughts on robots in education?
- 4. How will robots teach students in the future?
- 5. Robots are more productive than ~~humans~~ ^{people}, aren't they?

Task 4

Suddenly I've turned into a balloon, flying ^{up} in the light blue sky.

I could see the whole town. ~~It was a~~ ~~Saturday's morning~~ ~~beautiful~~. The view was so picturesque and breathtaking that I even ~~hadn't~~ didn't notice how ^{the} wind ~~was~~ had ~~blown~~ blown me down ~~to~~ ~~the~~ ~~streets~~ ^{to} the streets. I accidentally got pinned to the huge oak ~~in~~ ^{in the backyard of a} small house. Trying to escape, I noticed a boy and ~~the~~ a girl playing ~~in~~ their ~~backyard~~ backyard. They probably were a siblings, ~~since~~ ~~hearing~~ ^{he was}. The boy looked older, probably already ~~was~~ ^{he was} a teen. He looked bored and tired of his sister, ~~sighing~~ who looked like she was still in the third or fourth grade. The girl laughed and played with the skirt of her bright pink dress, spinning and dancing around her brother. ~~the boy~~ ~~sighed~~.

- You know that you're too old for that? - the boy asked.
- For what? - the girl asked innocently, ~~she~~ ^{she} blinking.
- ~~Oh~~ For all these games. When I was your age, ~~she~~ ~~acted~~ ~~like~~ ~~a~~ ~~toddler~~ ~~and~~ ~~was~~ ~~so~~ ~~serious~~ ~~and~~ ~~acting~~ ~~like~~ ~~a~~ ~~toddler~~. I acted way more seriously ~~and~~ ^{Stop wasting your time.} You're acting like a toddler.
- I'm not a toddler! If you don't want to play

They sit ~~and~~ ^{her} silently! - the girl yelled, running away from brother.

The boy sighed. ~~How could she be so naive and~~

~~show~~ his I smiled. Sister probably got on his nerves, ~~I could~~ ~~totally understand him.~~ ~~When they'll grow older~~ they'll remember fights like this with smiles on their faces.

I finally managed to fly up again and left the backyard fast, caught by the wind. ~~I~~ ~~at~~

~~My sky journey has only beginning.~~ I observed the whole town from the far distance. I was in awe! ~~All the~~ I couldn't

take my eyes from all the landscapes of the area. All the houses, park, little shops, forests and alleys so familiar and foreign at the same time. Looked ~~much~~ ~~more~~ ~~appreciated~~ I've noticed all the ~~When I was a~~
